Patient Billing and Financial Assistance Hospital Information Sheet

Johns Hopkins Medicine is committed to providing financial assistance to patients who have health care needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for medically necessary care based on their individual financial situation.

Billing Rights and Obligations

Not all medical costs are covered by insurance. The hospital makes every effort to see that you are billed correctly. It is important that you provide complete and accurate information about your health insurance coverage when you visit the hospital or an outpatient clinic. This will help make sure that your insurance company is billed on time. Some insurances will not pay a claim if it is sent in too long after the service was provided. Your final bill will reflect the actual cost of care minus any insurance payment received and/or payment made at the time of your visit. Charges not covered by your insurance may be your responsibility.

Physician charges are not included in hospital bills and are billed separately. However, for your convenience, Johns Hopkins Medicine has simplified our billing statement, and you will receive one combined statement with all of your accounts.

You may request a payment plan if you cannot pay your medical bill in full. Maryland residents, and those temporarily residing in Maryland, seen at a Maryland hospital may be eligible for an income-based payment plan that does not exceed 5% of patient's (or guarantor's) adjusted gross monthly income. Contact customer service at 1-443-997-3370 (local) or 1-855-662-3017 (toll free) or send an email to pfscs@jhmi.edu. Patients can also request additional information through Johns Hopkins Medicine MyChart patient portal.

Summary of Financial Assistance Eligibility Requirements and Assistance Offered

Johns Hopkins Medicine offers financial assistance to certain individuals who meet specified financial criteria and request such assistance under a Financial Assistance Policy. If you cannot pay for your medical care, you may qualify for free or reduced cost medically necessary care if you are:

- A member of the hospital's community. The community extends to those persons living or working in the hospital's service area or requiring emergency services while otherwise visiting within the service area.
- Have no other insurance options
- Have been denied medical assistance or do not meet eligibility requirements
- Meet specific financial criteria

Individuals eligible for financial assistance under the Financial Assistance Policy will not be charged more for emergency or other medically necessary care than the amounts generally billed (AGB).
